

## How to play Jack Change It

Jack Change It is played with a standard deck of cards where players take turns discarding cards that match the current upcard by suit or rank. Several cards act as trick cards, forcing other players to draw cards, skip turns, reverse play, or change suit.

The game continues clockwise (unless reversed) until one player runs out of cards and wins.

What makes it stand out is that multiple cards have special powers, which can dramatically change the flow of the game.
